

computing - Bug #4587

MAP (Moab Application Portal) not running

15/11/2012 17:02 - Jonathan Barber

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jonathan Barber	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Redirect present from http://localhost:80 to MAP URL - but service not running.			

History

#1 - 15/11/2012 17:04 - Jonathan Barber

- Status changed from New to Closed

Was using system JRE and failing because it was too old.

Modified /opt/map-5.2.0/mapctl.sh to include line:
export JRE_HOME=\$JAVA_HOME
export PATH=\$JAVA_HOME/bin:\$PATH

Then:
chkconfig moabportal on

All looks okay, added nagios service.
